5	Chief Guest	DR.K.Srinivasa Rao, Principal
6	Convenors	Sri. D. Siva Phanindra, NSS Program Officer and B.R.K.Kishore, Lect in Zoology

## Event Overview:

On September 21, 2022, Our College organized a Deworming Day activity aimed at promoting the health and well-being of its students. The primary objective was to raise awareness about the importance of deworming and to provide Albendazole tablets to the students.

## Event Details:

**Distribution of Albendazole Tablets:** The event started with the distribution of Albendazole tablets to all students. Deworming is a crucial aspect of maintaining good health, and the college administration took this initiative seriously to ensure the well-being of its students.

**Guest of Honor:** The Principal of our college served as the Chief Guest for the event. The presence of the Principal added significance to the activity and emphasized the college's commitment to the health and welfare of its students.

**Departmental Participation:** Various departments within the college actively participated in organizing and supporting the event, just as they did in previous similar activities. Their involvement contributed to the success of Deworming Day.

## Purpose:

The purpose of Deworming Day was to:

- 1.Raise awareness among students about the importance of deworming.
- 2.Provide Albendazole tablets to students to help them maintain good health.
- 3.Encourage students to take proactive steps towards their well-being.
- 4.Strengthen the sense of community and health consciousness within the college.

## Outcome:

The Deworming Day event at our college was a resounding success. It not only provided essential health support to the students but also fostered a sense of responsibility and community engagement. The participation of the Principal and various departments added prestige to the

event.

### Future Initiatives:

In line with the college's commitment to health and well-being, similar activities will be organized in the future to ensure that students continue to receive vital health-related information and support.

### Conclusion:

The Deworming Day activity held on September 21, 2022, at our college was a significant step toward promoting the health and well-being of its students. The active participation of students, the Principal, and various departments made this event a memorable and impactful one.
