

**SGK GOVERNMENT DEGREE COLLEGE
VINUKONDA, PALNADU DISTRICT**

GUEST LECTURE

BY

G. RAMU

LECTURER IN CHEMISTRY

DATE: 24.06.2022

TIME: 02.00 PM

CONDUCTED BY

DEPARTMENT OF CHEMISTRY

Activity Report

S. No.	Content	Details
1	Name of the Programme	Guest Lecture on “Drugs & Pharmaceuticals”
2	Date & Time	24.12.2022 & 02.00 PM
3	Conducted by	Department of Chemistry
4	No. of Students attended	46
5	Chairperson	Dr. K.Srinivasa Rao, Principal
6	Chief Guest	Dr. K.Srinivasa Rao, Principal
7	Program Convener	Dr. K.V.S. Koteswara Rao
8	Other Lecturers	Sri. V. Bala Yesu, Lecturer in Chemistry Sri. Rama K Kishore Behara, Lecturer in Zoology, Academic Coordinator

Guest Lecture by G. Ramu

Drugs & Pharmaceuticals

BRIEF REPORT:

On 24.06.2022, the Department of Chemistry at our degree college organized a chemistry guest lecture, which began with an inaugural session under the chairmanship of Dr. K. Srinivasa Rao, Principal. The session was attended by the Dr. K. V. S. Koteswara Rao, Head, Department of Chemistry, Sri. Rama K Kishore Behara, Academic Coordinator, Lecturer in Zoology, Mr. Valaparla Bala Yesu, Lecturer in Chemistry, Department of Chemistry and the guest speaker, Sri. G. Ramu, Lecturer in Chemistry. The topic of the lecture was "Drugs & Pharmaceuticals."

The lecture was attended by over 150 students and faculty members from the Chemistry department. G. Ramu, Lecturer in Chemistry began the lecture by introducing the concept of drugs and its importance in the field of pharmaceutical chemistry. He then went on to discuss the recent advances in the field of drug synthesis, which have revolutionized the way chemists approach the synthesis of complex organic molecules.

G. Ramu, Lecturer in Chemistry discussed several cutting-edge techniques such as corona drug, anti-Alzheimer drugs, and malarial drug synthesis in pharmaceutical chemistry. He explained how these techniques have led to the development of new drug synthetic methods and have helped chemists to synthesize complex organic molecules more efficiently and with greater precision.

The lecture was highly informative and engaging. G. Ramu, Lecturer in Chemistry, used several visual aids such as diagrams, graphs, and charts to illustrate his points and make the

lecture more accessible to the audience. He also encouraged active participation from the audience by asking questions and engaging in discussions.

After the lecture, there was a Q&A session where the audience had the opportunity to ask G. Ramu, Lecturer in Chemistry questions about his research and the field of organic chemistry in general. The session was very lively, and G. Ramu, Lecturer in Chemistry provided insightful answers to all the questions.

Overall, the guest lecture was a great success. It provided the students and faculty members with valuable insights into the latest developments in drugs and pharmaceuticals and inspired them to pursue research in this exciting field of chemistry.
