# Activity Report

S. No.	Content	Name
1	Name of the Programme	National Deworming Day
2	Date & Time	10.02.2025 & 12 PM onwards
3	Conducted by	<i>Dept of Zoology and D college health center</i>
4	No. of Students attended	25
5	Chief Guest	DR K.Srinivasa Rao, Principal

## Objective of the Event:

The National Deworming Day was observed to improve the health and well-being of students by administering albendazole tablets, which help in preventing parasitic worm infections. This initiative aimed at raising awareness about the importance of deworming and maintaining hygiene to ensure better academic performance and overall health.

## Event Highlights:

- The program was conducted under the guidance of the Department of Zoology and the College Health Center.
- Medical professionals from the Community Health Center, Vinukonda, provided support and supervised the distribution of medication.
- A brief awareness session was conducted before the distribution, educating students about intestinal worm infections, their symptoms, preventive measures, and the significance of deworming.
- The event witnessed active participation from students, faculty members, and medical staff

## Beneficiaries:

- Total students administered albendazole tablets: 170
  - Boys: 90
  - Girls: 80

## Outcome of the Program:

- Increased awareness among students about deworming and personal hygiene
- Successful administration of deworming tablets to 170 students

- Strengthened collaboration between the college and the local health authorities to promote student health

### Conclusion:

The National Deworming Day event at SGK Govt Degree College, Vinukonda, was successfully conducted with enthusiastic participation from students and faculty. The initiative played a vital role in promoting a healthy learning environment and highlighted the importance of regular deworming. The Department of Zoology and the College Health Center extend their gratitude to the Community Health Center, Vinukonda, for their support in making this event a success
